Tamar Patient Chair

Tamar Patient Chair

Fresenius Medical Care's Tamar Patient Chair has been designed in conjunction with one of Melbourne's leading health networks.

Practical in design yet aesthetically pleasing to the eye the Tamar Patient Chair has a number of key features including:

- Height adjustable
- Seat depth adjustable
- Memory foam
- Vinyl welded seat to minimize infection control issues
- Vinyl arms and sides for the longevity of the product
- Attractive round tube frame
- Mobility castors and push handle for ease of movement
- Standard model: Weight Capacity -130kgs
