STANDARD FEATURES & ACCESSORIES

T300 / T400

STANDARD FEATURES

01 Legrest Recline
Patients can control the legrest by using the side lever / the hand control.

02 Backrest Recline
The backrest can be reclined by pushing the side lever / the hand control. The Trendelenburg position can then be achieved.

03 Lockable Footstool
The footstool allows patients to enter into the chair easily. It allows patients to rest their feet on the footstool; also allows patients to step down from the chair safely.

04 Central Locking Casters
Central locking system for all casters. Nurses can lock or unlock the chair easily.

05 Neckrest
One neckrest is included as standard.

06 Round Handle
Easy for nurses to move the chair.

07 Separate Legrest
Patients can rest their legs, especially suitable for patients with leg cramp.
